Happy Valentine's Day!

What is your Valentine's Day Horoscope?

Aquarius

January 20 - February 18

Switch it up and do something for yourself. You are always looking for what you can do for others. Treat yourself to a nice dinner or buy yourself a teddy bear and some heart-shaped chocolates. Aquarius are also extremely original so it won't take much to come up with a fun way to spend your Valentine's Day. If all else fails, sit back and watch "Ellen" our most iconic Aquarius, you will definitely find some inspiration there!

Pisces

February 19 - March 20

Have yourself a romantic movie night! You have a massive imagination and love that rosy love feeling. Movie endings from "The Notebook" or "A Cinderella Story" melt your heart. No need to go out this Valentine's Day. Wrap up in a blanket and watch your favorite romantic movies. You can agree with a fellow Pisces, Drew Barrymore: "I love romance. I'm a sucker for it. I love it so much. It's pathetic."

Aries

March 21 - April 19

It's time to shoot your shot! You love making others happy and are a bold go-getter. You ooze confidence so tell someone how you feel and don't hold back. If you get nervous, just think about the wild and outgoing Lady Gaga, who is no doubt an Aries!

Taurus

April 20 - May 20

Take the day to relax! You think everything over to the smallest detail and love being pampered. This Valentine's Day, stop thinking and treat yourself!

Sit back and have a nice calming night. Don't worry about relationships. Like Noah Centineo, our favorite Taurus, said in "To All the Boys I've Loved Before," "Life doesn't have to be so planned. Just roll with it and let it happen."

Gemini

May 21 - June 20

Put yourself out there! You have a big personality and are the life of the party, so people love to be around you. Take a risk and try talking to someone new. Don't be afraid because like Marilyn Monroe, a captivating Gemini, said, "Fear is stupid. So are regrets."

Cancer

June 21 - July 22

Let go of the past and start new! As a Cancer you are extremely sentimental, which can cause you to hang on to

the past. This Valentine's Day, let go of your past relationships and look for your new boo! Like Ariana Grande, a Cancer, said, "Thank you, next."

Leo

July 23 - August 22

It is time for you to take charge! Be confident and put yourself out there. Being the proud Leo that you are, you probably already know that you are a catch! As the famous Leo Madonna one said, "Don't just stand there. Let's get to it!"

Virgo

August 23 - September 22

Focus on you this Valentine's Day, even if you are in a relationship. Virgo are often self-critical so take this time to celebrate you. Why not treat yourself to a cookie from the cafeteria? Embrace the words of Virgo Beyonce as your mantra: "There's nothing not to

love about me. I'm lovely!" You go girl!

Libra

September 23 - October 23

It's all about friendship today. You are a social butterfly and the ultimate host. Grab a pint of Ben and Jerry's, call up your squad and binge some cheesy rom-coms. Take the words of Libra Zac Efron who, in his iconic role of Troy from "High School Musical," once said, "We're all in this together!"

Scorpio

October 23 - November 21

Do not hesitate to open your heart. You have an independent spirit; however, the connections that you do make are special and long lasting. As Scorpio Anne Hathaway once said, "I live my life with love. I live my life with compassion."

Sagittarius

November 22 - December 21

Go on an adventure. Take a walk through a different part of town or try out a new restaurant. Invite your beau or if you fly solo, even better! Enjoy a night out with all of your best friends. After all, as Sagittarius Miley Cyrus once said, "It's a party in the USA!"

Capricorn

December 22 - January 19

Be open to surprises. Being the cautious Capricorn that you are, you may not like surprises. Step out of your comfort zone and try something new! As The Campanile's favorite Capricorn, Timothée Chalamet, once said, "We're only here for so long. Be happy, man. You could get hit by a truck tomorrow."
