Case for Support 2026–27 - Mount Mission Fund

BELONG. BELIEVE. BECOME.

At Mount Saint Joseph Academy, these three words capture the heart of a Mount education.

When she **BELONGS**, she discovers her place.
When she **BELIEVES**, she discovers what is possible.
When she **BECOMES**, she discovers her purpose.

Tuition covers only 80% of the true cost of a Mount education. The remaining 20% is made possible through the generosity of our community. The Mount Mission Fund sustains academic excellence, enriches student life, supports faculty, expands access, and brings bold new opportunities to life.

BELONG

Finding her place in a community that knows her.

We create opportunities for every Mountie to participate, connect, lead, and be celebrated.

- **Student Experience:** New and expanded musical instruments, upgraded auditorium sound, a new 10-passenger school van, two golf simulator rooms, and a new school mascot - expanding opportunities for students to explore, compete, perform, and belong.
- **A Lifelong Community:** A 30-member Alumnae Board strengthens sisterhood beyond graduation, while 35+ alumnae will return for Career Day on April 15 to inspire, mentor, and connect with students. A new Student Life initiative also placed 25 student interns in seven departments.
- **A Connected Community:** The new student Club Hub makes it easier to discover opportunities and track involvement. With 79 co-curriculars engaging 470 students each week and 11,750+ hours of community service, Mounties are actively participating, leading, and giving back.
- **A Community That Gives Back:** The Alumnae Board is committed and has 100% participation in the Mount Mission Fund. They also host over 15 events each year and support programs like Mounties in Touch, keeping the sisterhood connected well beyond graduation.

BELIEVE

Discovering what is possible.

We give students the tools and experiences to discover their gifts and reach their fullest potential.

- **Academic innovation:** Internship and Peer-to-Peer Mentor programs, a renovated Learning Center, and an Anatomage Table for advanced, hands-on anatomy education
- **Expanding opportunity:** 47% of students benefit from financial assistance and/or scholarships, helping make a Mount education possible for more families
- **Dedicated faculty:** Our faculty do more than teach. They moderate clubs, coach sports, mentor students, lead service opportunities, and invest in the whole Mountie — in and beyond the classroom.

BECOME

Growing into the woman she is called to be.
A Mount education is about more than what she learns - it is about who she becomes. Through leadership, mentorship, service, exploration, and real-world experiences, Mounties gain the confidence and purpose to use their gifts and make a difference.

Every gift helps a Mountie believe in what is possible, belong to a community that believes in her, and become the woman she is called to be.

P.S. Celebrate the Annual Fund with us! March Magic kicks off March 18 and continues through March 19, bringing our community together for activities, giving challenges, and celebration.
